

## GUIDE DES TAILLES POUR LES BAGUES

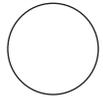

### ► OPTION 1 : MESUREZ SELON UNE DE VOS BAGUES

**Imprimez ce baguier en taille réelle**

Vérifiez votre impression à l'aide d'un décimètre : l'échelle ci-contre doit mesurer 5 cm. Ce baguier à imprimer est une aide pour déterminer votre tour de doigt et n'est pas contractuel.

### ► OPTION 2 : MESUREZ VOTRE DOIGT AVEC UN GABARIT

**Gabarit à découper pour bagues** (largeur : 5 mm / longueur : 80 mm)

Découpez le gabarit ci-dessus

Enroulez le gabarit autour de la partie la plus large de votre doigt.

Ajustez le gabarit au plus près de votre doigt pour plus de précision.

Notez votre mesure et regardez à quelle taille elle correspond sur le baguier ci-dessus.
